## ***UP Beta Sigma Fraternity Credo***

*I am a Beta Sigman and I am proud of it. I wear my Fraternity Pin knowing that it represents all that is good and noble in man. To me, it is not a mere piece of tin alloy and gold, for its worth lies not in its ingredients but in the price I have to pay before it is mine to keep; a price computed not in terms of pesos, but of sacrifice, sweat and blood. It must be earned before it is worn.*

*My Fraternity Pin has a history all its own. It tells of the saga of men who climbed the barriers of wealth, region, creed, and prejudices so that they may create a feeling of kinship predicated upon sympathy, understanding, friendship, and equality.*

*As a Beta Sigman, I must cultivate the seeds of love and uproot the weeds of hatred, avarice, and envy. My actions must never stray in a direction that will cast dishonor upon the name of my Fraternity, defy its traditions, nor lower the tone of its dignity.*

*- Prospero Crescini, UP Diliman, '49*

“

**MESSAGE**

It was **Brod Vic Ramos** who suggested our theme “*Beta Sigma: Steadfast and True at 72*” for this year’s anniversary. There was a consensus among the brods that it best describes the achievements of our Fraternity.

Indeed, we celebrate the founding anniversary of a genuine brotherhood since a group of young post-war state scholars of the University of the Philippines organized the Beta Sigma Fraternity at the halls of the old UP Padre Faura campus in Manila on July 14, 1946, which incidentally also falls on the day the historic Bastille Day is being commemorated to symbolize the global cry for “liberty, equality and fraternity.”

This year, we are dedicating our Grand Fraternity Ball to all our founding brothers.

Our Fraternity has shown that apart from being the “*brotherhood of scholars*,” ours is a continuing journey which thrives beyond borders, with a legacy that our 15,000 members from various universities and colleges can cherish and be proud of. We have proven that we can face the challenges of changing times, and still survive to promote the the vision of our founders that we should represent “all that is good and noble in man.”

This is our lasting legacy for our future generation of Beta Sigmans.

In behalf of the UP BSFI Board of Directors (2017-2018), may I also thank all the brods for your untiring support in all our undertakings from our community service programs to enhancing our resident chapters in all the UP campuses nationwide.

We are dedicating this year’s Grand Fraternity Ball to all our founding brothers.

**Mabuhay ang Kapatirang Beta Sigma!**

Cheers! Cheers!

Faternally yours,

”

**MESSAGE****All UP Beta Sigmans all over the world, REJOICE!**

We are 72 years old and we remain strong and durable as ever.

Special congratulations to all those who are celebrating their milestone year as Betans - Batch 48 (Titanium), Batch 58 (Diamond), Batch 68 (Golden) and Batch 93 (Silver).

Established in San Francisco, California in 2001 with Founder Father Jesus R. Jayme as Chairman Emeritus, UP Beta Sigma International (UPBSI) is also commemorating its 18th Year.

We remain faithful and true to our mission and vision towards promoting our beloved brotherhood as the Fraternity of Choice and as staunch partner of UP Beta Sigma-Central.

We have likewise passed the test of time after weathering a man-made storm during the early part of my term.

We have made several structural changes these past two years.

As I pass on the torch of leadership, I'd like to express my deepest gratitude to everyone, most especially to those who have worked so hard with passion, sacrifice, and dedication.

Finally, on behalf of all UPBSI members, I offer my salute to all the organizers of the 72nd Grand Fraternity celebrations.

**MABUHAY ang UP Beta Sigma!**

“

**MESSAGE**

It is with great pride and honor to congratulate the **UP BETA SIGMA FRATERNITY, INC.** I have witnessed all the efforts you have exerted since the birth of the Beta Sigma Fraternity in 1946 and I would like to commend all of you for that. You have indeed made our Fraternity shine in many aspects during our 72 years of our existence and hoping that it will continue to shine till the end of time. Rest assured that the Beta Sigma Fraternity Alumni Association - National Assembly will always be in full support of your future endeavors particularly in community service and development taking into practice our motto of "SERVICE ABOVE ALL".

***Once Again Congratulations and Mabuhay ang Kapatirang Beta Sigma!***

## MESSAGE

**The enthusiasm of the brods** to gather at least once a year in a Grand Fraternity Ball has inspired to make this event a simple, but memorable one.

It's not really easy to organize an event for the Fraternity, knowing how we have transcended seven decades of genuine brotherhood. We have worked hard for everything that you have hoped for in a reunion of Beta Sigmas will happen tonight. It always happens when we always work as one.

Today, we are also officially releasing the complete roster of the UP Beta Sigma Fraternity in all of the University of the Philippines campuses, an effort of the UP Beta Sigma International.

It is also a privilege that the mother chapter is hosting our founding anniversary with our brothers and sisters comprising the Beta Sigma Fraternity National Assembly, which has represented our alumni and resident brods in various university and college chapters.

**Maraming Salamat** to all our brods for their continuous support to our dear Fraternity!

Brotherly Yours,

**EDUARDO GARCIA** UPB 79

### The Last of the Mohicans

**They were the founders. They started it all. They were part of the Greatest Generation, those who had endured and survived the hardships of WWII and were ready to take on the challenges of the transition from a US colony to an independent republic.**

**There in the reopened premier university of the country on July 14, 1946, they established a university wide fraternity that would transcend all others, a Brotherhood of Scholars; its tenets can be summarized in two words: Honor and Excellence. As we reflect on the founders' names, let us also reaffirm their canons for eminence.**

# A Past Revisited: Fraternity Sweethearts, Sigma Beta and the Ladies' Corps

**There has sadly been no fraternity sweetheart** with the residents for 4 decades now as this institution was a time honored tradition of the brotherhood, that has been disregarded. A fraternity sweetheart is a co-ed selected or elected by the fraternity to serve as the female face of the organization as she participates in the fraternities' activities. She carries a rose or any flower for that matter as a sign of respect and fraternal friendship.

**The sweetheart is held** in very high regard, and is treated with absolute dignity and respect. She should have a good moral character, have excellent grades, and be able to speak in front

of a crowd. The process of selecting a sweetheart is not exactly thru a beauty contest but she is undeniably the muse of the fraternity in all its endeavors.

The rule in order to be the sweetheart of the fraternity during her term is that she cannot date any of the brothers, but a brod may act as an escort for her to official functions. As of this writing, we still haven't confirmed if any brods broke that rule. She cannot also be a member of a sorority or of the Ladies Corps.

• **Karina C. David**; the daughter of famed historian Renato Constantino; an AB and Master's Degree holder in Sociology from UP Diliman; the former chairwoman of the Civil Service Commission of the Philippines and the Career Executive Board; and an international awardee; was the fraternity sweetheart from 1965-66 under the administration of Grand Princep Edong Soliman '62. Karina fondly recalls that she would ride the Beta Sigma truck during UP's annual Hay Ride...the Lantern Parade; be present during the final initiation rites; joined the student council elections and the campaigns; and attend all social activities sponsored by the Beta Sigma. Throughout her term, she always felt protected by the brods. Yes, fond memories indeed for our sweetheart....of the glory days of the frat.

## Origins of the Ladies' Corps

**The UP Sigma Beta Sorority** (Diliman) is the oldest sorority (founded in 1932) in the Philippines but it was never the consistent sisterhood of the fraternity. The Sigma Betans have always been autonomous and prided themselves of having their own mind. This on and off relationship with the brods eventually paved the way for the creation of the UP Beta Sigma Ladies' Corps in Diliman. At the onset of the seventies, the fraternity's somewhat inadequate relations with Sigma Beta was increasingly becoming manifest as both sides wanted a way out of the stressed affiliation. "You could not really define it, whether it was estranged or it would still continue," quipped Chaks Baldoria '65, Grand Princep 1973-74. The Ladies Corps or LC began under the administrations of GP's Gamy Manikan (married to Dulce, former M.I.S of Sigma Beta), then to Norman Bituin, then to Alex King, then to Claro Sta. Maria and then to Chaks, eventually shoving aside Sigma Beta.

**The Ladies Corps** or LC fitted in nicely as a sub-organization of the fraternity which moved along parallel lines – Beta Sigma's auxiliary corps. If the fraternity sweetheart was the female face of the frat, the Ladies Corps or LC became the female organization of the brods. Chaks pointed out that they even added members into the corps from co-ed schools like Maryknoll (now Marian), St. Theresa's and St. Paul's.... "We had social gatherings with them like soirees." The fraternity leadership then surmised that this all male association should interact more, outside of themselves, as part of their social growth and development of societal skills to become a complete person — the yin and yang. Brods dated the LC's and several of the latter eventually became their wives.

**Iris de Mesa**, who later became the better half of Marco Montes, batch 1988B, was president of the LC during the term of GP Nugget Aquino '79LB, recalls that there were good and bad days with the brods. There was a time that the frat juxtaposed the tambayan (hang out) of the Sigma Betans alongside that of the resident brods and the LC's which irked the latter. Like the scorned lady of the house who was adamant that there can't be 2 queens under one roof, the LC's prevailed upon the Betans to relocate their sisters a little bit further away. The LC's always gave their full support to the brods; participating in all their events, sacrificing their time and money, cooking their meals and even acting as spies for the brods when they were at war with the other frats. "We gave our whole hearts to those boys," smiled Iris.

**Another LC, Claire Tan**, reminisce university life that there were times, that they didn't go home immediately after classes and instead hung out at the tambayan with the brods having a good time as late as midnight. It was youth at its indulgent moments. Through the years, the Ladies Corps has grown and expanded, also becoming the auxiliary group of the fraternity's UP Baguio chapter. The Corps has integrated itself into much of the fraternity's structure. Chak's daughter, Charisse, a renowned pianist, even became an adviser to the LC.

To this day, the UP Beta Sigma's Ladies Corps has flourished even after university life, as its members have carried and brought honor to Beta Sigma through their own individual accomplishments in every facet of society. The Corps' role continues to complement the fraternity, establishing itself as an integral part of the brotherhood. But what of the fraternity sweetheart, should it be restored or relegated to a footnote in history? That is a matter to be resolved by the Millennial Betans.

## Raffy Tomeldan '75A UPD

“

We are pleased to present the **U.P. Beta Sigma Fraternity roster** of its members from the five campuses of the University of the Philippines (Diliman, Los Baños, Baguio, Visayas, and Mindanao), from **1946** to the present, including the founding members and adviser of our beloved Fraternity.

This roster brings to each and everyone of us the feeling of belongingness either as a resident or as an alumnus. We are all Beta Sigmans for life.

It may have taken time to accomplish this project, from the moment we initially broached the idea to the leadership. It was generally about the idea of bringing the brothers together to work for a project that will benefit our beloved Fraternity. We believe that our Fraternity, to borrow a quote, **"is an agent of social change."** As such, the U.P. Beta Sigma has subsequently earned and gained the respect of our society as nation builders. This roster lists the names of the men **"who climbed the barriers..."**, as our magnificent Credo proclaims. This humbly instills in us the sense of pride that, as a brotherhood, we are capable of working together regardless of our differences, undaunted by the hardships and sacrifices that have to be surmounted.

Presently, we are working on the expanded form of the roster - the unified directory. Like the roster, the directory shall be a password-protected document in the U.P. Beta Sigma International (UPBSI) website, which has been managed competently by Brod Norman Bituin through all these years. The directory shall be a useful tool for our Fraternity in promoting unity and improving communication and coordination as the Fraternity pursues its noble goals and objectives, as directed by our trusted leadership.

**We are counting on the support of all the brods. So be counted!**

We draw on our experiences as officers of the Fraternity during our U.P. residency days which have helped us immensely in handling the requirements of this undertaking. Time spent on the tambayan is always valuable and rewarding. The Fraternity, again to borrow a quote from an esteemed brother, **"is like a wise, old father"**; patiently rearing, teaching its sons. We get the inspiration and the resolve in that.

On this occasion, we wish to thank all the brods who have made it possible for this project to be a success at this stage. We owe a great deal to the past leaderships of both the UPBSI and the Central Organization for providing the valuable wisdom and guidance. We must give credit to Brods **Willie Vergara, Brandy Ancheta, Edsel Arceo, Noli Nolasco, Ruben Pascual, Jojo Alejar, Rolly Reyes, and Joel Paredes**. Many thanks also to Brods **Dan Galoso, Ike Araneta, Randy Malayao, Dutch Aragones, Fred Young, Roy Antonio, Robie Feliciano, Prince Elmer Reyes, Butch Madarang, and Boy Luna**. The original team - Brods **Bitoy Sison, Poty Aparato, Jes Puzon, Mario Pangan, and Caloy Agulto**.

Our warmest greetings to the **U.P. Beta Sigma Fraternity** on its 72nd anniversary! *Congratulations and cheers to all the brods!*

## 'Precast reinforced concrete box system' pushed to address housing backlog

BY BING KIMPO

**T**HE Philippines currently has a housing backlog of 3.9 million households, according to the Department of Trade and Industry.

On top of that, is a projected yearly demand of about 800,000 units, noted the Organization of Socialized and Economic Housing Developers of the Philippines (OSHDHP), in a recent interview with The Manila Times.

With the industry producing only an average of 230,000 units a year, OSHDP said supply "can't even catch up on a yearly basis."

While the housing backlog issue is multi-faceted and complex, one aspect may be addressed, according to developers Woodendragon.

The firm has been building mass housing units using their own version of precast reinforced concrete modular housing.

Their ambitious promise: "ten houses built in one day."

Woodendragon calls what they do "precast reinforced concrete box system for modular houses."

The system departs from the traditional construction method of post and lintel, and walls of hollow blocks. Woodendragon Chief Executive Officer Kim Cabatit describes it as "more of manufacturing houses—than constructing them."

The method, certified by the Accreditation of Innovative Technologies for Housing (AITECH) Committee of the government's Housing and Urban Development Coordinating Council, is a precast construction system that literally raises modular housing from the ground up on-site—minimizing build time, reducing the number of deliveries required, and managing the manpower needed, all while being responsive to the conditions there.

Woodendragon does its own concrete batching and mixing, and panels are molded on-site using steel casting tables. All required utility installations are embedded in the reinforced concrete panels. Within 24 hours of casting, the panels are lifted and installed by 45-ton cranes.

Except for the first unit, which requires a lead panel, Woodendragon's basic 22-square meter row housing unit is composed of only five precast reinforced concrete panels—including the toilet. These three-inch 3000-pound per square inch (PSI) reinforced concrete panels act as shear walls. When installed with cor-

rels, they can support the load of a 20-square meter loftable second floor.

With the concrete panels weighing an average of six to eight tons, Woodendragon's "precast reinforced concrete box system" requires that roads be built after the cranes install the houses.

"Imagine a corps of army engineers with all the equipment and heavy machinery rolling into a place and essentially setting up a manufacturing plant, then raising up the pre-cast panels one after another till you've finally assembled a house right before your very eyes in a short span of time—that's the magic of our system," explains Woodendragon Chief Planning and Design Officer, Engr. Ray Mendoza.

Mendoza adds that their system ensures regularity and quality, as no panel can be lifted and installed if it is sub-standard in composition.

The modular nature of Woodendragon's "precast reinforced concrete box system" allows it to combine two basic 42-square meter lofted row houses, to create an 84-square meter floor area. Chief Operating Officer, Arch. Richie Agbulos reveals that, with their system, Woodendragon can also produce a variety of two-floor designs for single and single-attached (duplex) units.

It is an accomplishment in itself that the system earned the approval of AITECH as the committee counts members from the government's housing bodies, the Construction Industry Authority of the Philippines, as well as Department of Public Works and Highways, the Department of Science and Technology, the Department of Trade and Industry's Bureau of Product Standards, and the University of the Philippines' Building Research Service.

Moreover, Woodendragon's "pre-cast concrete box system for modular row houses" is cost-efficient—Agbulos says it can even cost one-third of what other players can budget for construction—even as it is solid and safe.

"Our units have withstood major storms like Typhoon Glenda, and they are definitely sturdy," shares Cabatit. The system, he adds, "can seismically withstand the force of a magnitude 7 earthquake, as well as super typhoon-category winds."

Raymundo Mendoza and Executive Construction Development Officer Gaspar Gamban)

The "precast reinforced concrete box system" complies with all relevant codes, including the American Concrete Institute (ACI)'s building code requirements, the American Institute of Steel Construction (AISC)'s standard code for steel buildings and bridges, the country's National Building Code, the National Structural Code of the Philippines, and the standard specifications for highways and bridges adopted by the Department of Public Works and Highways and the Department of Transportation.

Woodendragon's flagship project for its "precast concrete box system" for modular row houses is San Manuel Villaggio, a National Housing Authority (NHA)

housing project of 1,165 units for the Armed Forces of the Philippines (AFP) and the Philippine National Police (PNP) in Barangay Molino in Naic, Cavite.

The young company had also finished a 1,111-unit housing project for the informal sector in Barangay Lallana, Trece Martires City using the same "precast concrete box system" for modular row houses system.

While Woodendragon acknowledges that there are certainly several factors to consider in addressing the housing problem, it believes that it can—and has—addressed the build aspect of it with its "precast concrete box system" and its promise of affordable, quick and quality houses.

## We Remember

We remember the first day we were called "brods".

It was Quezon Day, Monday, August 20, 1962. It was a holiday to commemorate the birthday of the country's President during the Commonwealth period.

More than half a century has passed. Diosdado Macapagal was still President of the Republic. Carlos P. Romulo, fresh from his diplomatic successes in the UN, was just installed UP President. Jelly Nacino was Grand Princep of the best fraternity on campus.

UP students were talking about Marilyn Monroe who was in the cover of Life Magazine. She just died of drug overdose. "The Birdman of Alcatraz" was showing downtown. While cramming for exams, we tuned in to Jo San Diego on DZMT for the day's popular songs by Neil Sedaka, Bobby Darin, Bobby Vinton and of course Elvis Presley.

But on that particular day, as neophytes, our only concern was how to toughen our minds and bodies for the "finals". We remember being brought to a farm in Bulacan. By God's grace we survived that rite of passage before the end of the day and were warmly hugged and welcomed as newly minted Beta Sigmans.

After all these years, among myriads of memories, what we most miss are our brothers who have gone ahead. With heavy hearts we have lost almost half of our batch mates — Papu, Jolly, Dong, Franklin and Boygee. We can only pray for peace in their eternal rest.

In joining the fraternity, we only asked for a sense of belonging to tide us over during our vulnerable campus years. Instead we got a lifetime of friendships that enriched our careers and total well-being.

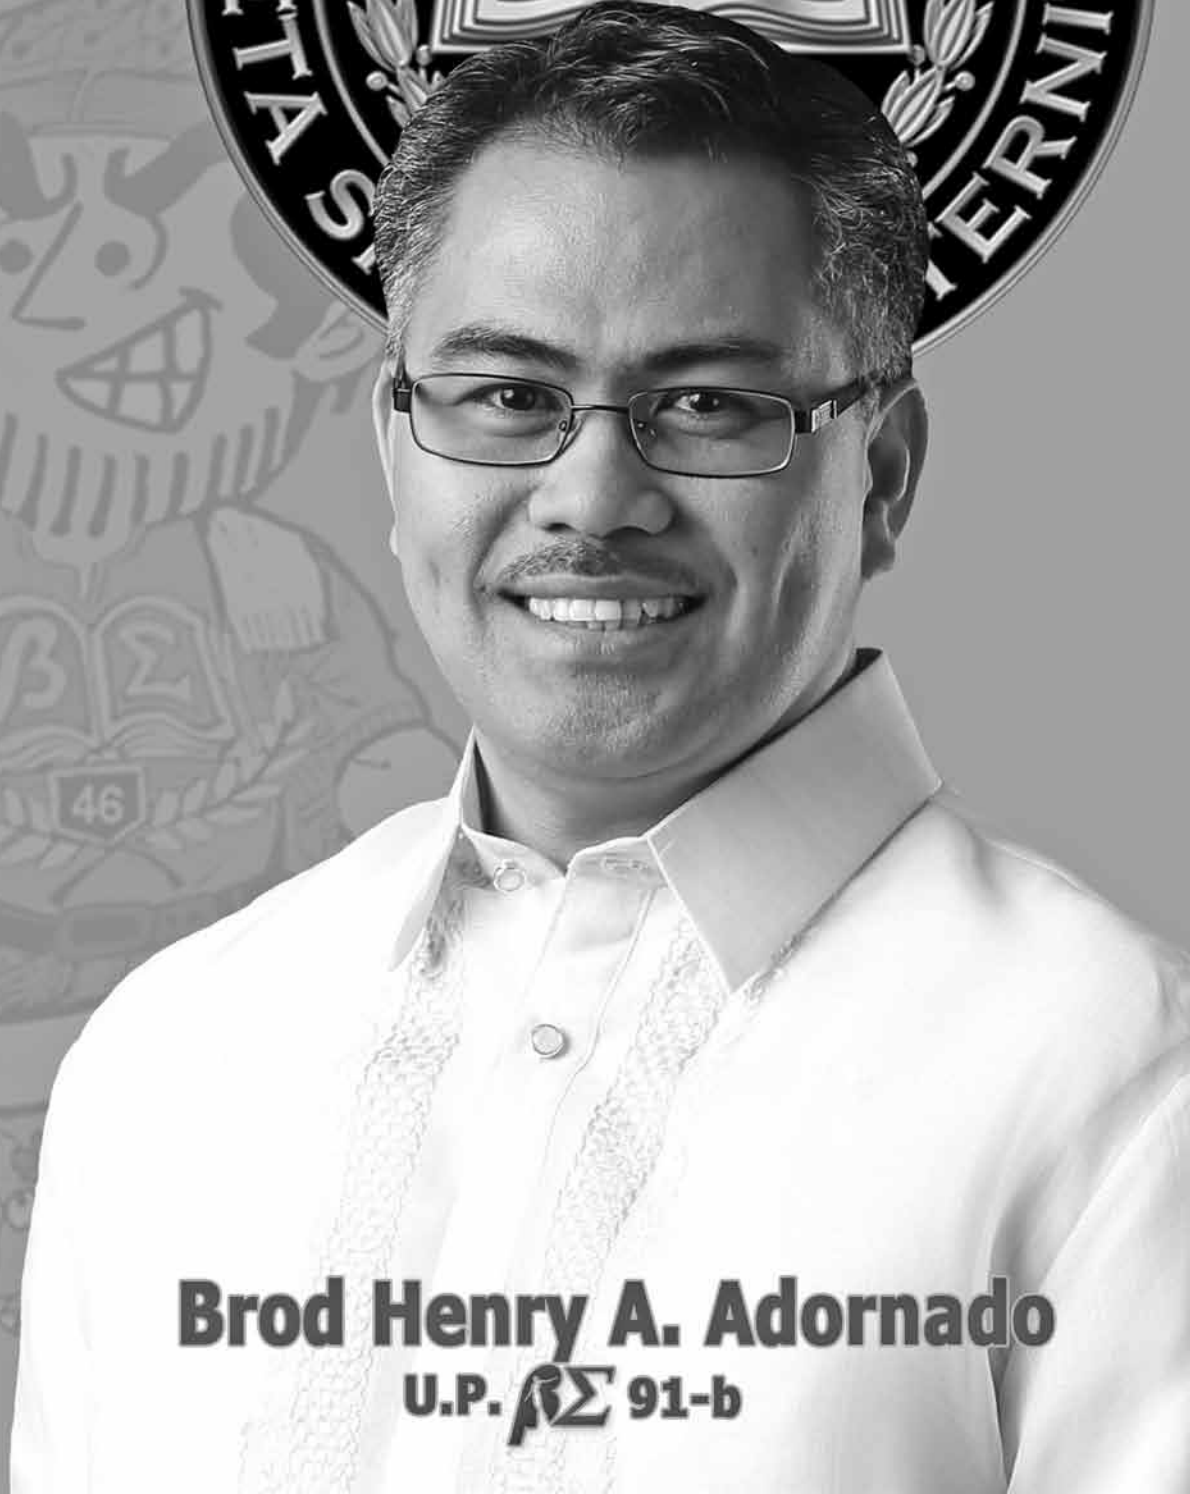

Today we give thanks to a brotherhood that has been steadfast and true! Diliman batch 62A, The Quezon Batch
